

Skillomate 1.0 — Build 13

Xcode archive and local development IPA completed successfully. This report compares the new artifact with the prior build 12 package and records the verification performed.

✓ ARCHIVE SUCCEEDED	✓ IPA EXPORT SUCCEEDED	NOT UPLOADED TO TESTFLIGHT
---------------------	------------------------	----------------------------

MARKETING VERSION	BUILD NUMBER	MINIMUM IOS	ARCHITECTURE
1.0	13	16.4	arm64

Build comparison

Field	Previous: build 12	New: build 13
Created	14 Sep 2026, 16:18 IST	24 Sep 2026, 13:15 IST
App version / build	1.0 (12)	1.0 (13)
Bundle identifier	com.alihussainkhan.edunexfinal	Unchanged
IPA size	12 MB	11 MB
Archive size	60 MB	59 MB
Signing	Apple Development / Team LJ48CVC23W	Apple Development / Team LJ48CVC23W
Deployment	iOS 16.4+, arm64	iOS 16.4+, arm64

Artifact integrity

Build 13 IPA	Skillomate-1.0-build13-development-export/Skillomate.ipa
SHA-256	b950c3ef135cc7ad53a7c86aeb11bf01f41cd71217a6c072a4c7d5d7cfee3e8e
Xcode archive	Skillomate-1.0-build13.xcarchive

What build 13 adds over build 12

The prior archive predates the current application work. Repository history between the pre-build-12 baseline and the current committed snapshot records 515 changed files, 53,807 insertions and 5,695 deletions; build-number edits and generated artifacts are additional working-tree changes.

Mobile experience Updated navigation, swipe gestures, iOS viewport behavior, responsive lesson layout, horizontal lecture browsing and player overlay/loading behavior.	AI learning Refined mobile AI chat, lesson-aware conversation caching, video-aware tutoring, saved lesson notes and per-lesson PDF text extraction.
Payments & access Improved Razorpay plan selection, prefill handling, checkout cancellation recovery, post-payment signup, subscription gating and purchase history.	Offers & media Added reusable/per-page offer routes, share controls, mute/quality behavior, campaign video handling, polished pricing/CTA presentation and account recovery flows.
Backend reliability Production API/CORS corrections, earlier environment loading, faster course authorization/loading, ownership controls, progress persistence and user presence safeguards.	Admin operations Expanded reports, payment auditing, course/access controls, branded certificates and a certificate template editor.

Build & configuration changes

- iOS build number advanced consistently from 12 to 13 in app.json, Xcode project settings and Info.plist; marketing version remains 1.0.
- CocoaPods lock state was synchronized with the installed Expo modules before archiving (Expo 57.0.22, Expo Image Picker 57.0.17 and Expo Sharing 57.0.19).
- Release bundle was generated with <https://api.skillomate.in> as the production API/AI base, Hermes enabled and React Native New Architecture enabled.
- Development export used automatic signing with team LJ48CVC23W. The embedded profile covers the app identifier and expires 14 Sep 2027.

Verification performed

Check	Result
Clean Xcode Release archive	PASS — ARCHIVE SUCCEEDED
Development IPA export	PASS — EXPORT SUCCEEDED
Archive + IPA manifest	PASS — version 1.0, build 13, expected bundle identifier
Code signature	PASS — valid on disk and satisfies designated requirement
Production endpoint in bundle	PASS — api.skillomate.in found in compiled Hermes bundle
Binary target	PASS — iPhoneOS arm64, minimum iOS 16.4

Release note	This package is a local development IPA for provisioned devices. TestFlight/App Store Connect upload was intentionally not performed. Xcode emitted dependency deprecation/nullability and Hermes static-analysis warnings, but no build or export errors.
