

Skillomate 1.0 - Build 14

Build 14 is ready as an Xcode archive, a development IPA, and an App Store Connect export. This report compares it with build 13, which the supplied TestFlight view shows as complete on 17 Sep 2026.

ARCHIVE PASSED		DEVELOPMENT IPA PASSED	APP STORE EXPORT PASSED
VERSION	BUILD	MINIMUM IOS	ARCHITECTURE
1.0	14	16.4	arm64

Build comparison

Field	Previous: build 13	New: build 14
Status	Complete in TestFlight	Built locally; not uploaded
Baseline date	17 Sep 2026, 16:38 IST	24 Sep 2026, 13:26 IST
Version / build	1.0 (13)	1.0 (14)
Bundle identifier	com.alihussainkhan.edunexfinal	Unchanged
Deployment	iPhoneOS	iOS 16.4+, arm64
Distribution package	Apple-processed TestFlight build	13 MB App Store IPA

Build 14 artifacts

Upload-ready IPA	Skillomate-1.0-build14-app-store-export/Skillomate.ipa
App Store SHA-256	2deb90a226a50570bf5331208d07bc220f9ad46dbe981fe9ae5edf2af907f6f7
Development IPA	Skillomate-1.0-build14-development-export/Skillomate.ipa
Development SHA-256	e38991299d2dfc9552df5ff6fcba825df2ec166713349f0c63f04f6e03315ca4
Xcode archive	Skillomate-1.0-build14.xcarchive

App Store signing	Cloud Managed Apple Distribution; team LJ48CVC23W; Store provisioning profile; beta reports enabled; distribution certificate and profile expire 7 Oct 2027.

CHANGE SUMMARY

What build 14 adds over TestFlight build 13

Using the 17 Sep TestFlight timestamp as the previous baseline, repository history records 401 changed files, 35,957 insertions and 5,614 deletions through the current committed snapshot. The build-number edits and generated packages are additional working-tree changes.

Mobile and iOS iOS performance work, swipe navigation, mobile Safari viewport fixes, updated navigation and responsive lesson/player layouts.	Learning and AI Lesson-aware AI conversations, video-aware tutoring, saved notes, PDF text extraction, improved course copy and resilient tutor sessions.
Video and courses Faster authorization/loading, quality controls, horizontal lecture browsing, ownership controls, progress persistence and overlay fixes.	Payments and offers Premium offer onboarding, Razorpay plan/error handling, checkout recovery, post-payment signup, account recovery and purchase history.
Backend reliability Production API routing and CORS fixes, environment ordering, access safeguards, payment auditing and user presence controls.	Admin operations Reports and workspace polish, course/access controls, branded certificates, template editing and Meta Pixel management.

Build and configuration changes

- iOS build number advanced consistently from 13 to 14 in app.json, Xcode project settings and Info.plist; marketing version remains 1.0.
- Release bundle uses https://api.skillomate.in for production API and AI traffic, with Hermes and React Native New Architecture enabled.
- App Store Connect export was generated locally with distribution signing and get-task-allow disabled; the development IPA remains available for provisioned-device testing.
- No TestFlight upload was performed, so the existing build 13 entry remains unchanged until build 14 is uploaded.

Verification performed

Check	Result
Clean Xcode Release archive	PASS - archive succeeded
Development IPA export	PASS - export succeeded
App Store Connect export	PASS - export succeeded
Archive and IPA manifests	PASS - version 1.0, build 14, expected bundle identifier
Code signature	PASS - valid on disk and satisfies designated requirement
Production endpoint	PASS - api.skillomate.in found in compiled Hermes bundle
Distribution configuration	PASS - arm64, Store profile, beta reports active

Build note Xcode emitted third-party Expo/React Native deprecation, nullability and Hermes static-analysis warnings. No archive, export, signing or manifest errors occurred.
