Lesson 03 — Landing Page Copy

Learning objective

Write useful text for every section without invented claims.

Concepts and explanations

• Continue in the same ChatGPT conversation.

• Draft Hero, Why Us, four cake descriptions, How to Order, reviews placeholder, FAQ and final CTA.

• Use genuine customer reviews only when available.

• Owner decides prices.

Step-by-step lesson workflow

• Replace [number] with the chosen headline option.

• Request section-by-section copy in simple language.

• Verify each benefit and FAQ against the business.

• Save the full copy in page order.

How to check your work

Compare the result against the original business brief and confirm that no new product claims, pricing, contact details, testimonials or guarantees were introduced.

For the Sweet Crumbs demonstration, verify the specific file names, page goal and section structure before moving to the next lesson.

If an AI response is incomplete, request the missing portion and recheck the combined result instead of assuming it is ready to publish.

Practical assignment

Finish and proofread the complete page copy.

Common mistake and integrity rule

Do not invent reviews, customer numbers or prices.

Review checklist

☐ I understand the key concepts. ☐ I completed the activity. ☐ I verified names, facts, files and links.

Based on the supplied Course Notes, Chatbot Knowledge Base and All Prompts. English explanatory notes, not a video transcript.
