

AI INFLUENCER COURSE — DETAILED NOTES + PROMPTS (Lesson 1–34)

Har lesson: detailed notes (kya + kyun + kaise + common galti + Aaj ka kaam) **aur** us skill ka teaching prompt.
Video ke neeche copy-paste karo.

MODULE 1 — FOUNDATION

Lesson 1 — Introduction

Kya hai: AI influencer ek digital model hai jo bina camera, bina model, bina sharam aur bina kharche ke tumhare liye din-raat content banati hai. Ek hi phone se tum ek poori "creator + business" chala sakte ho.

Ye 3 kaam karti hai:

- **Content** — daily reels aur photos (Instagram/YouTube).
- **Business** — kisi brand/product ke professional photos aur videos, ya kisi brand ka "face" banna.
- **Paisa** — followers se sponsorship, ads, affiliate, aur apna product bech ke.

Kyun ye ab possible hai: AI tools itne saste + aasan ho gaye ki na coding, na editing degree, na English chahiye. Sirf seekhne ki niyat.

Common galti: log sochte hain "ye mushkil/technical hai" — actually ye copy-paste level aasan hai jab process pata ho.

Aaj ka kaam: decide karo tumhe content banana hai, business karna hai, ya paisa — teeno ka rasta isi course mein hai.

(Concept lesson — koi generation prompt nahi.)

Lesson 2 — Tools Setup

Sirf 3 tools chahiye (teeno phone pe, shuruat free):

- **Google Flow** — photos aur videos generate (course ka main tool).
- **VN** — editing (cuts, captions, music) — bilkul free, watermark nahi.
- **ChatGPT** — scripts, dialogues, prompt ideas.

Zaroori setup rules:

- Flow + baaki sab **ek hi Google account** se banao — warna account bhool jaoge, files atak jayengi.
- Free version ki daily limit hoti hai — practice ke liye kaafi. **Pehla client/paisa aaye tabhi paid** lena.
- Ek home-screen folder "AI Studio" — teeno tools ek jagah, roz kholne mein aasani.

Common galti: alag-alag accounts se sign-up karke files/history kho dena.

Aaj ka kaam: teeno tools install + ek hi Google account + "AI Studio" folder.

(Concept lesson — koi prompt nahi.)

Lesson 3 — AI Influencer ka Character Banana

Sabse bada concept = CONSISTENCY. Face har photo mein bilkul same hona chahiye — warna audience aur brands trust nahi karte (log ek pehchana chehra follow karte hain).

Character decide karo (kahin likh lo): naam, age, city, personality, interest — jaise "Neha, 22, Mumbai, fashion + travel". Ye persona uske content ka flavour decide karta.

Face banane ka tarika: ek detailed prompt se face generate karo, 4 nikaalo, sabse achhi + real wali ko **REFERENCE PHOTO** ke roop mein save karo. Ye ek photo aage har kaam (pose, outfit, location, video) mein lagegi.

Common galti: har baar naya face banana (consistency toot jaati). Ek hi reference pakdo.

Aaj ka kaam: character details likho + face generate karo + best ko reference save.

■ **PROMPT (face banane ke liye):**

A young Indian woman, early 20s, oval face, warm brown eyes, long dark wavy hair, soft friendly smile, natural clear skin, wearing a casual top, standing in soft natural daylight, realistic candid photo, shot on iphone. 9:16.

Lesson 4 — Prompt Likhna Seekho

Pure course ki sabse zaroori skill — achha prompt = achhi photo, bura prompt = bekaar output.

Prompt ke 5 hisse (order mein):

1. **Kaun** — age, gender, nationality ("a young Indian woman, early 20s").
2. **Face details** — aankh, baal, skin, smile ("oval face, brown eyes, wavy hair").
3. **Kapde** — outfit specific ("white cotton kurti").
4. **Jagah/background** — location + mahaul ("cafe, soft window light").
5. **Style** — realistic / candid / shot on iphone.

Rules: English mein likho (weak ho to ChatGPT se translate). "Beautiful/gorgeous" jaise adjectives bekaar — details do. Ek prompt mein 2-3 main cheez, zyada maangoge to AI confuse.

Common galti: vague prompt ("ek sundar ladki") → random output.

Aaj ka kaam: 5 prompts likho (base same, sirf jagah + kapde badalke).

■ **PROMPT (structure):**

use the exact same face, same woman, same facial features, [outfit], [location + mood], realistic photo, shot on iphone, natural light

MODULE 2 — PHOTO SKILLS

Lesson 5 — Same Face, Alag Pose

Concept: reference photo + magic line **"Use this exact face. Same woman, same facial features."** → chehra same rehta, pose/angle/jagah badal jaati.

Zaroori:

- Hamesha **original reference** se banao. Nayi banayi photo ko dobara reference **mat** banao — warna face dheere-dheere badalta jayega (copy ki copy = drift).
- AI 100% match nahi deta har baar — **4 generate karo, best 1 rakho.**

Common galti: nayi photo ko reference bana ke chain continue karna → face slowly badal jaata.

Aaj ka kaam: reference se 5 alag photos (jagah/kapde/pose), best save.

■ **PROMPT:**

use the exact same face, same woman, same facial features, now she is [new pose / angle / sitting / walking], realistic photo, shot on iphone

Lesson 6 — Outfits Badalna

4 style ka wardrobe banao (zyada styles = zyada clients/brands):

- **Casual** (daily/relatable), **Ethnic** (Indian/festival), **Western** (premium/office), **Party wear** (occasion).

Tips: outfit ke saath **lighting match** karo (party → evening/warm, casual → natural day). Ek photo mein main kapda + 1 accessory + lighting — bas; zyada maangoge to AI gadbad karta.

Common galti: ek hi style ki photos (limited kaam milta).

Aaj ka kaam: chaar style ki ek-ek photo.

■ PROMPT:

use the exact same face, same woman, same facial features, now she is wearing [specific outfit], [matching lighting], realistic photo, shot on iphone

Lesson 7 — Locations Badalna

5 location type: Ghar (relatable), Cafe (aesthetic), Street (fashion), Nature (travel), Premium (hotel/rooftop — luxury/brands).

Tips: sirf jagah nahi, **mahaul** likho ("sunset in background, wind in hair"). Location ke hisaab se **pose** bhi badlo (candid > stiff). Famous monument mat maango (AI bigaad deta) — "historic Indian architecture" jaisi general.

Common galti: har jagah same khadi pose (boring + AI lagta).

Aaj ka kaam: paanch location type ki photos.

■ PROMPT:

use the exact same face, same woman, same facial features, now she is standing on a Goa beach at sunset in a flowy summer dress, wind in hair, sunset in background, candid pose, realistic photo, shot on iphone

Lesson 8 — Realistic Skin & Details (AI-look hatao)

Plastic/AI-look hatane ke liye prompt mein 4 cheez:

1. natural skin texture, visible pores
2. slight imperfections, few flyaway hairs
3. shot on iPhone / DSLR
4. soft natural light

Aur "candid" word add karo — natural pose + real-friend-snap feel.

Ulta kaam karne wale words: "ultra realistic, 8K, HD, perfect" — ye actually zyada AI/plastic bana dete. Inhe avoid karo.

Common galti: "8K ultra realistic" likhke sochna real aayega — ulta hota hai.

Aaj ka kaam: 3 purani photos ko in 4 details ke saath dobara banao, side-by-side compare.

■ PROMPT:

use the exact same face, same facial features, now she is sitting in a cafe wearing a white shirt, candid natural moment, shot on iphone, soft natural light, natural skin texture, visible pores, slight imperfections

Lesson 9 — Photo Quality Fix

Save karne se pehle checklist:

1. Haath/ungliyan — 5 hain? mudi to nahi?
2. Aankhein — dono ek jagah, same direction?
3. Background — kuch bigda/melt to nahi?
4. Face match — reference se milta hai?

Repair kaise: "Fix **only** the hands/eyes... keep everything else exactly the same" (word **only** zaroori). Ya kharab hissa **crop** karo. Ya aisi pose banao jisme haath chhup jaye (pocket/bag/crossed).

Rule: ek photo pe **max ek fix** — do problem ho to delete karke nayi banao (fix pe fix quality girata).

Common galti: ek hi photo ko baar-baar fix karna → aur bigadti.

Aaj ka kaam: saari photos checklist pe check; fail wali fix ya delete.

■ PROMPT:

fix only her hand in this image, fingers natural and correctly shaped, five fingers, relaxed pose, keep the face hairstyle outfit pose lighting and background exactly the same, do not change a

Lesson 10 — 30 Photos ka Content Bank

Batch banao: ek hi din mein poore mahine ka content — **30 photos = 5 outfits × 6 locations**. Regular posting hi Instagram ka rule, aur roz banana practical nahi.

Kaise: ChatGPT se **30 numbered prompts** likhwao (saari details already daalke), phir Flow mein ek-ek chala ke generate.

Reality: 30 banao to 20-22 achhi milengi (normal AI hit-rate). Har 5 mein 1 candid rakho (feed real lage).

Common galti: roz ek-ek photo banana (thak jaoge, consistency tootegi). Batch = smart.

Aaj ka kaam: 30 prompts list + kam se kam 10 photos aaj (baaki 2 din mein).

■ PROMPT:

generate multiple photos of her, same exact face: 1 morning coffee at home, 2 working on laptop in cafe, 3 evening street walk, 4 reading at night, 5 rooftop golden hour... (numbered, har mein outfit+location details), realistic, shot on iphone

MODULE 3 — VIDEO & REELS

Lesson 11 — Photo se Video Banana

Kyun: Reels = Instagram ka asli game — photo se **10× reach**, aur brands video ke zyada paise dete.

Kaise: photo upload → prompt mein **chhoti movement** likho (smile, blink, coffee sip, hair sway) + "natural motion". Video ~8 sec (reels ke liye kaafi).

Rule: movement **chhoti** rakho — badi harkat (chalna, ghoomna) mein face bigadta. 2-3 try, best rakho.

Common galti: badi/complex movement maangna → face melt/warp.

Aaj ka kaam: 3 best photos se video (chhoti movements).

■ PROMPT:

[attach photo] She smiles softly, blinks naturally, slowly lifts the coffee cup and takes a sip, gentle camera movement, natural motion. 9:16.

Lesson 12 — Lip-Sync Video (bolti Neha)

2 step: pehle **script** (jo bolegi), phir Flow mein bulwana.

Prompt: "She looks at the camera and speaks naturally... **saying:** [words]".

Rules: line **chhoti** (8-10 sec, 15-20 words). Hindi word galat bole to **sound ke hisaab se spelling** likho ("zindagi" → "zindagee"). Ek video = ek baat.

Reality: lip-sync mushkil hai — 3-4 try normal.

Common galti: lamba line/paragraph → mouth out of sync, cut off.

Aaj ka kaam: ek intro line (15-20 words) + lip-sync video, best save.

■ PROMPT:

[attach photo] Real handheld iPhone video. She looks at the camera and speaks naturally, friendly expression, saying: "Hi guys! Mumbai se hu main. Fashion aur travel meri zindagee hai. Naye ho toh follow karlo!" 9:16.

Lesson 13 — AI Voice Banana

Concept: awaaz bhi face jaisi consistent honi chahiye. **Voice ke 3 hisse:** pitch (soft/deep), speed (pace), tone (friendly/calm).

Kaise: prompt mein voice line add karo aur **har video mein bilkul same** likho (reference line ki tarah). Fancy words ("melodious/honey voice") mat — simple napi-tuli details.

Pro tip: agar Flow ki awaaz AI-ish lage, edit mein **apni recording ya ElevenLabs Hindi voice** overlay karke Flow-voice mute kar do.

Common galti: har video mein alag voice description → awaaz badalti rehti.

Aaj ka kaam: voice description final + notes mein save + ek video us line se.

■ **PROMPT (voice line):**

...she speaks naturally, soft warm female voice, young Indian accent, medium pace, saying: "[line]"

Lesson 14 — Reel Editing Basics (VN)

VN mein sirf 4 kaam:

1. **Ratio 9:16** (full-screen reel).
2. **Cut/jodna** — pehla aadha second kaato (turant action se shuru = watch-time).
3. **Captions** — jo bol rahi wahi text (white + black outline). 80% log bina awaaz dekhte.
4. **Music** — volume 20-30% (awaaz hero rahe).

Export **1080p**. Transitions/effects ke chakkar mat pado — simple hi professional.

Common galti: over-editing (zoom, effects) → cheap/cluttered lagta.

Aaj ka kaam: pehli poori reel (4 steps), export.

(VN skill — koi generation prompt nahi.)

Lesson 15 — 5 Reel Formats

5 formats (idea kabhi khatam nahi):

1. **GRWM** (get ready with me), 2. **Day in Life**, 3. **Tips** (3 value tips), 4. **Trends** (trending audio = free reach), 5. **Product** (sabse keemti — brands ke liye).

Rule: har format har baar viral nahi — **rotate** karo (hafte 3 reels, 3 alag formats). 20-30 reels baad pattern samajh aata (kya chalta).

Common galti: ek format pe atakna, ya viral ka intezaar. Consistency > perfection.

Aaj ka kaam: 2 formats chuno, dono ki 1-1 reel.

■ **PROMPT (batch photo + animate):**

generate 4 photos of her (same face): morning coffee / laptop work / evening walk / reading at night
now animate all 4: 1 sips coffee slowly, 2 types and smiles, 3 gentle wind as she walks, 4 turns a page softly

MODULE 4 — INSTAGRAM *(strategy — koi generation prompt nahi)*

Lesson 16 — Profile Setup (professional)

Kyun: log reel dekh ke 3 sec mein profile pe decide karte hain follow kare ya nahi; brands profile 10 baar check karte.

4 cheez:

1. **Username** — chhota, naam se juda, no numbers/underscores.
2. **Profile photo** — close-up face (full body nahi — chhoti screen pe pehchana jaaye).

3. **Bio (3 line)** — kaun + kahan se + hook, 1-2 emoji.

4. **Professional/Creator account** — free analytics (kaun ■■■ reel chali, followers kab active).

Common galti: naye account pe 10 posts ek saath thok dena → spam shak, reach dabti.

Aaj ka kaam: profile taiyaar + ek achhi pehli post.

Lesson 17 — Posting Schedule + Captions & Hashtags

Schedule: algorithm **regularity** dekhta. Hafte **3 reels** (3 formats), fixed din/time (jaise Mon-Wed-Fri raat 8 — followers active time analytics se).

Caption formula: hook (pehli line) → 1-2 line value/story → call-to-action.

Hashtags: 10-15 mix (bade + medium + chhote niche), 2-3 sets bana ke rotate.

Common galti: caption mein "nice day ■" — caption post ka salesman hai, use karo.

Aaj ka kaam: weekly schedule + 3 caption templates + 3 hashtag sets.

Lesson 18 — Reels Algorithm Samjho

Soch: algorithm dushman nahi, **dukaandaar** — usko log app pe rukwane hain. Jo reel rokti hai, wo aage badhti.

Reel ka safar: pehle ~200 logon ko dikhti → achha response → 2000 → aur aage.

3 sabse important: (1) **watch time** — pehla second sabse zaroori, (2) **completion/re-watch** — loop banao, (3) **shares & saves** — likes se zyada powerful.

Pehla 1 ghanta: active time pe post + comments ka turant reply.

Common galti: boring pehla second → log scroll → reach mar jaati.

Aaj ka kaam: apni best reel ka pehla 2 sec pattern dekho aur repeat karo.

Lesson 19 — 0→1000 Followers + Engagement

1000 kyun khaas: app serious leta (reach khulti) + brands ki duniya (nano-influencer 1000-10000 brands ke sabse pasandeeda — engagement zyada, rate sasta).

Roadmap: 1000 pahaad nahi — hafte 3 reels/3 formats → 2 mahine = 24 reels → 2-3 chalengi → 1000. Shuru ke followers apne circle se (koi sharam nahi).

Engagement (followers rokna + jodna): like/comment/reply/share. Engaged account = zinda account, sirf number se zyada keemti.

Roz ka 20-min routine: (1) comments ka reply (khaas pehle ghante), (2) story mein poll/sawaal/BTS, (3) doosron ke posts pe 10-15 genuine comment (niche follow, spam nahi).

Common galti: post karke gayab — Instagram do-tarfa hai, jo judta wahi badhta.

Aaj ka kaam: 8-hafte reel plan + aaj ka 20-min routine.

MODULE 5 — PRODUCT PHOTOGRAPHY (asli kamai shuru)

Lesson 20 — Product Photo Basics

Kyun paisa yahin: har seller (Amazon/Flipkart/Instagram/Shopify) ko product photos chahiye — traditional shoot hazaaron ka, tum ghar baithe de■■■ ho.

2 type: clean shot (plain bg) + lifestyle. Aaj **clean shot** (base).

Kaise: Flow mein character + product ki photo jodo — "same character holding this product, plain simple background". **Product bilkul same** rahe (shape/colour/label na badle — dhyan se check).

Rule: product hero hai, character nahi — product bada, saamne, achhi roshni mein.

Common galti: product ka label/shape AI badal deta — check kiye bina bhej dena.

Aaj ka kaam: koi ek product (cup/bottle/jar) ki clean photo character ke saath.

■ **PROMPT:**

Use the same character holding this product (attached), plain simple background, product clearly visible and in sharp focus, soft even light, ultra realistic commercial product photo, 4K

Lesson 21 — Professional Studio Shots

Saste vs mehngi ka farak = 3 cheez:

1. **Lighting** — soft studio light, hard shadow nahi.
2. **Background** — plain white/grey + product ke neeche **soft shadow** ("rakha hua" lage, chipka nahi).
3. **Angle** — bottle/jar eye-level, jewellery/watch upar se close, shoes side.

Har product ke **2-3 angle/variation** do (choice = professional).

Common galti: flat lighting + no shadow → product "floating"/fake lagta.

Aaj ka kaam: ek product ko studio-level — soft light + clean bg + 3 angles (catalog set).

■ **PROMPT:**

Product photo of [product], professional studio setup, soft key light, plain white/grey background with a soft shadow under it, [eye-level / top / side] angle, premium commercial look, ultra realistic, 4K

Lesson 22 — Lifestyle + Platform-Ready Shots

Lifestyle: product ke saath zindagi (watch kalai pe cafe mein, candle jalti cozy room). Log **feeling** khareedte — brands iske zyada paise dete.

Platform-ready:

- **Amazon/Flipkart main image** = plain white bg, product bada, no text.
- **Instagram/website** = lifestyle + square/vertical crop.

Sahi size/crop mein do (client ko dobara crop na karna pade = professional).

Common galti: ek hi photo har jagah bhejna — pehle poochho "photo kahan use hogi".

Aaj ka kaam: ek lifestyle photo + ek Amazon-ready white photo (ek set).

■ **PROMPT:**

[product] held in hand in a real [cafe/desk/outdoor] setting, candid lifestyle, shot on iphone, natural light, realistic || + separate: [product] on plain white background, product large and centered, no text, catalog style, 4K

Lesson 23 — Fashion Try-On

Kyun: model pe pehna kapda flat photo se **3x zyada bikta** (return kam). Har boutique/brand ko chahiye.

Kaise: character + flat outfit photo → "same character wearing this outfit". **Print/colour/design bilkul same** (yahin AI galti karta — zaroor check).

Variety: kurti/saree/dress + jewellery. Ek kapde ke **2-3 look** (full body, half, close-up detail).

Common galti: print/pattern AI badal deta — mismatch bhej dena.

Aaj ka kaam: ek flat kapda/accessory try-on + 2 alag look.

■ **PROMPT:**

Use the girl from the first attached image (same exact face) wearing the outfit from the second attached image (exact same print, colour and design), standing in a cozy room, shot on iphone, natural light, ultra realistic. 9:16.

Lesson 24 — Pehla Client Kaise Laye (Outreach)

Mindset: tum salesman nahi, ek **problem ka hal** de rahe (saste professional photos jo sales badhati).

Client kahan: Instagram pe chhote sellers (boutique, skincare, jewellery, candles, food) jinki photos kamzor; local businesses.

Cold message = 3 line: (1) sachhi tareef/product ka zikr, (2) "main professional photos banata hu jo sales badhati", (3) chhoti offer — **"ek free sample bana ke dikhau?"** (free sample sabse taakatwar).

Numbers khel: ~20 messages = 1-2 haan. Roz 5-10 personal outreach + follow-up.

Common galti: copy-paste generic message; ek "no" pe rukna.

Aaj ka kaam: 10 sellers dhoondho, 2 ke liye free sample + 3-line message.

(Strategy — practical prompts L20-23 wale.)

Lesson 25 — Product Shoot ki Pricing

2 galtiyan: zyada maanga (client bhaaga) / kam maanga (izzat + kamai giri).

3-tier packages:

- **Basic** — kuch photos, 1 product, 1 platform (■100-1000 start).
- **Standard** — zyada photos, angles, 2 platform (■1k-3k).
- **Premium** — poori set, lifestyle+studio, sab platform (■3k-7k).

Rules: daam mat girao, **scope girao** (kam photos). **Advance lo** (aadha pehle, aadha delivery). Confidently package batao, phir chup raho.

Common galti: discount de dena instead of scope kam karna → value girti.

Aaj ka kaam: rate card (3 packages — kya milega + kitne ka).

(Strategy — koi prompt nahi.)

MODULE 6 — UGC & BRAND DEALS

Lesson 26 — UGC (Samajh + Pehli Video)

UGC = User Generated Content — ais■ lage jaise aam user ne banaya (brand ne nahi). Log ads pe nahi, logon pe bharosa karte. **Followers nahi chahiye** (brand apne page/ads mein daalta).

70% khel = script. Formula (3 hisse): hook (pehle 3 sec — problem/bold line) → value/demo (product kya karta) → CTA ("link bio mein"). Total chhota (20-40 sec).

Banane ka tarika: lip-sync + product haath mein → 3 clips → VN (9:16, tight cuts, captions har line, soft music).

Common galti: hook boring → koi nahi rukta. Pehle 3 sec pe sabse zyada mehnat.

Aaj ka kaam: ek product, 3-hissa script, ek poori UGC video.

■ **PROMPT:**

Use the girl from the attached image (same exact face). Real handheld iPhone selfie UGC video, she presents [product] to camera like a genuine excited review, cozy room, shot on iphone, super realistic. She says: "[hook line + value + CTA]." 9:16.

Lesson 27 — Portfolio Banana

Kyun: portfolio = tumhara resume/degree/interview — brand 2 min mein dekhke decide karta.

5 videos (range dikhe): 2 testimonial, 2 demo, 1 alag niche. Sab **ek jaisi high quality** (1 kamzor = poor down). 5 achhi > 10 average.

Kahan rakho: ek link — Google Drive folder / simple portfolio page / Instagram highlight. Upar naam + line ("UGC creator — product videos jo bikti hain").

Common galti: kaam ka intezaar phir portfolio — **ulta: pehle banao** (samples se hi client aata).

Aaj ka kaam: 5 videos plan (2 testimonial, 2 demo, 1 niche) + ek folder/link.

(Practical: Canva "mood board" template → best clips/images → "MY PORTFOLIO" + handle → PDF/PNG export.)

Lesson 28 — Brands Tak Pahunchna

Kis brand ko: bade (Tata/Nike) mat pakdo (agencies hain) — **chhote/medium brands** (skincare, gadget, kapde, food) jinko content chahiye, budget kam.

3 raaste: (1) Instagram DM (ads chalate par content simple), (2) Email (website collab), (3) collab platforms / "creators wanted".

Message formula: product ki sachhi tareef → tum UGC creator (bikne wali videos) → portfolio link + **sample offer** (sabse taakatwar).

Numbers: roz 5 DM + 2 email. Na/no-reply normal. **Follow-up** (3-4 din baad) — zyadatar deals wahin close hoti.

Common galti: copy-paste sab jagah / bade brand pe atakna. Kam links, personal, consistency.

Aaj ka kaam: 15 chhote brands list + 5 DM + 2 email + 1 sample video.

(Strategy — koi prompt nahi.)

Lesson 29 — Deal Close Karna

Rate card (video ka set): Basic (1 video, 1 revision) / Standard (2-3 videos, alag hooks) / Premium (video set, alag platforms). Shuru mein 1 video ■3k-15k.

Negotiation: "zyada hai" → daam nahi, **scope girao**. "free karke dikhao" → sirf chhota sample. **Usage** poochho (kahan/kitne time — ads = zyada charge).

Payment: advance (aadha pehle, aadha delivery), likhit mein. Bina advance kaam shuru mat.

Deal se pehle 3 cheez clear (likhit): kitne videos, kitni revisions, usage.

Common galti: ye clear kiye bina "haan" → baad mein dispute/free extra kaam.

Aaj ka kaam: UGC rate card + 3 aam sawaalon ke ready jawab.

(Strategy — koi prompt nahi.)

Lesson 30 — Brand ke Saath Kaam (repeat/retainer)

Asli paisa purane client mein: naya = 50 messages/hafte; purana = 1 message.

Delivery 3 niyam: (1) time se pehle do, (2) promise se thoda zyada (extra angle/bonus), (3) saaf files ready format (sahi size/name/folder).

Revisions: deal jitni khushi se; unlimited free se bacho.

Repeat/monthly: delivery ke baad — "aur content chahiye to ready hoon, monthly package bhi" → **monthly retainer** (fixed content, fixed paisa) = stable income.

Common galti: deal poori karke gayab — har delivery ke baad feedback + agla kaam offer.

Aaj ka kaam: delivery checklist + repeat/monthly message template.

(Strategy — koi prompt nahi.)

MODULE 7 — MONETIZATION & SCALING *(strategy — koi generation prompt nahi)*

Lesson 31 — Affiliate Marketing

Kya: product ka special link share → koi khareede → commission (bina bech/stock/delivery).

Amazon/Flipkart/Myntra free join.

Perfect kyun: already products dikhate ho, bas link jodo. Ek reel mahinon commission de sakti — passive ("sote hue") kamai.

Kaise shuru: (1) program join (Amazon Associates aasan), (2) niche products (fashion/skincare/gadgets), (3) value content ("5 monsoon must-haves"), link bio/comment/stories.

Common galti: har cheez ka link → bharosa tootta. **Kam links, zyada bharosa, zyada sale** (sirf jo sach mein achha).

Aaj ka kaam: ek program join, 3 niche products, ek value-video plan.

Lesson 32 — Apna Digital Product

Kya: ek baar bane, baar baar bike (bina stock/delivery) — PDF guide, checklist, template pack. Har sale poora munafa (affiliate se farak: product + paisa dono tumhara).

Kya banao: wahi jo jaante ho ("AI influencer guide", "prompts pack", "content calendar", "UGC templates"). Followers ki ek problem hal kare. Chhota rakho.

Kaise: simple PDF/Notion, cover achha + clear steps. Value se bikta, design se nahi. **Becho:** payment link + reels (problem→hal), pricing chhota → reviews → badhao.

Common galti: perfect banane mein launch nahi karte — **chhota banao, jaldi launch, feedback, improve.**

Aaj ka kaam: ek product idea + outline + ek sell-reel plan.

Lesson 33 — Faceless Business Model

Kya: har business ko Instagram chahiye par owner ko na camera na time — tum ek **permanent AI face** de do (roz saste mein content).

Model: ek business chuno, consistent character = brand ka chehra (roz product/offers/tips). Grahak ko pehchana chehra → bharosa. Owner ko "content machine".

Kamai: (1) apna business → khud content, (2) doosron ke brand ka face + monthly content → **monthly retainer** (stable income).

Common galti: sirf bade brands ki soch — ulta, **chhote local business** (na time na budget) sabse aasan client.

Aaj ka kaam: ek business + brand-face character + content plan + pitch line.

Lesson 34 — Multiple Influencers (Scaling)

Kya: ek se zyada AI influencers (fashion/tech/fitness) — ek insaan = poori agency, har character apni kamai.

Doosra kab: pehla set ho tab (ek saath 3 = teeno adhoore). Naya niche = paisa + demand, ek character ek niche.

System se chhalao: har character wahi process (sheet, content bank, schedule). Template → doosra aadhe time mein. **Batch work** (1 din photos, 1 din videos). Kamai: 1 character = 4 streams; 3 characters = 4×3 par kharcha 3× nahi.

Common galti: josh mein 3-4 ek saath (sab average) — **ek ko winner banao, system pakka karo, phir agla.**

Aaj ka kaam: pehla set hai to doosre ka plan; nahi to pehle ka system likhit.

Lesson 35 — Monthly Income System + Roadmap (finale) abhi baaki hai.

GLOBAL RULES (har generation lesson pe)

- **Image-to-video always** (text-to-video = face drift). Ek locked base still → sab clips.
- **"use the exact same face, same facial features"** = identity lock.
- **Short prompt + short line**; "shot on iphone, natural light, candid" = real. "8K/ultra realistic" spam mat.
- **4 generate, best 1 rakho**. Realism ka 80% base still se aata.
- Marketing/earn/app/download words spoken generation mein NAHI (text overlay + VO se).

AI INFLUENCER COURSE — FULL PROMPTS (har project ka pura prompt)

Har lesson: Title · Description · Full ready-to-use prompt (copy-paste). Concept/strategy lessons mein prompt nahi (strategy hai).

MODULE 1 — FOUNDATION

Lesson 1 — Introduction

Description: AI influencer kya hai, aur ye content + business + paisa kaise deta. *(Concept — no prompt.)*

Lesson 2 — Tools Setup

Description: Google Flow + VN + ChatGPT setup, ek Google account. *(Concept — no prompt.)*

Lesson 3 — Character Banana (Face Lock)

Description: Apni AI influencer ka consistent face banana + reference save.

Full prompt:

A young Indian woman, early 20s, oval face, warm brown eyes, long dark wavy hair, soft friendly smile, natural clear healthy skin with visible pores and a few faint freckles, wearing a simple casual top, standing indoors in soft natural daylight, candid pose, shot on iPhone, ultra realistic, real skin texture, natural imperfections, NOT smoothed, no beauty filter, no text. 9:16.

(4 generate, sabse real wali ko REFERENCE save karo — har kaam mein lagegi.)

Lesson 4 — Prompt Likhna Seekho

Description: Prompt ke 5 hisse (kaun/face/kapde/jagah/style).

Full prompt (template):

use the exact same face, same woman, same facial features, [outfit — e.g. white cotton kurti], [location + mood — e.g. sitting in a sunlit cafe by a window], candid natural pose, shot on iPhone, soft natural light, ultra realistic, real skin texture, no filter, no text. 9:16.

Lesson 5 — Same Face, Alag Pose

Description: Ek reference se face same, pose/angle alag.

Full prompt:

use the exact same face, same woman, same facial features (from the attached reference), now she is [standing / sitting / walking, new angle], relaxed candid pose, natural expression, shot on iPhone, soft natural light, ultra realistic, real skin, no filter, no text. 9:16.

MODULE 2 — PHOTO SKILLS

Lesson 6 — Outfits Badalna

Description: Same face, alag kapde (4 style).

Full prompt:

use the exact same face, same woman, same facial features, now she is wearing [specific outfit – e.g. a pastel ethnic suit], matching [lighting – e.g. warm festive light], candid pose, shot on iPhone, ultra realistic, real skin texture, no filter, no text. 9:16.

Lesson 7 — Locations Badalna

Description: Same face, alag jagah + mahaul + pose.

Full prompt:

use the exact same face, same woman, same facial features, now she is standing on a Goa beach at sunset in a flowy summer dress, wind gently blowing her hair and dress, sunset glow in the background, waves softly behind, she looks toward the sea then to the camera with a candid smile, shot on iPhone, natural realistic light, ultra realistic, real skin, no filter, no text. 9:16.

Lesson 8 — Realistic Skin (AI-look hatao)

Description: Candid/real look (posed→candid).

Full prompt:

use the exact same face, same facial features, now she is sitting in a cafe wearing a white shirt, candid natural moment, shot on iPhone, soft natural light, natural skin texture with visible pores, slight imperfections and a few flyaway hairs, real and relatable, NOT over-smooth, no beauty filter, no text. 9:16.

Lesson 9 — Photo Quality Fix

Description: Haath/aankhein/details fix.

Full prompt:

fix only her hand in this image – the fingers should look natural and correctly shaped, five fingers, relaxed pose. Keep the face, hairstyle, outfit, pose, lighting and background exactly the same. Do not change anything else in the photo.

Lesson 10 — 30 Photos Content Bank

Description: Ek din mein mahine ka content (batch).

Full prompt:

Generate multiple photos of the same woman, exact same face and facial features, realistic, shot on iPhone, natural light, real skin: 1) morning coffee at home in casual wear, 2) working on a laptop in a cafe, 3) evening walk on a city street, 4) reading a book at night, 5) rooftop at golden hour... (numbered, each with outfit + location details). No filter, no text. 9:16.

MODULE 3 — VIDEO & REELS

Lesson 11 — Photo se Video Banana

Description: Image-to-video (chhoti natural movement).

Full prompt:

[attach the photo] Image-to-video. She smiles softly, blinks naturally, slowly lifts a coffee cup and takes a sip, gentle natural camera movement, subtle motion, real handheld iPhone feel, ultra realistic, real skin, no filter, no text. 9:16.

Lesson 12 — Lip-Sync Video

Description: Bolti hui influencer (script + lip-sync).

Full prompt:

[attach the photo] Image-to-video. Real handheld iPhone video. She looks at the camera and speaks naturally with a friendly expression, mouth in natural sync, saying: "Hi guys! Mumbai se hu main. Fashion aur travel meri zindagee hai. Naye ho toh follow karlo!" Ultra realistic, real skin, natural light, no filter, no text. 9:16.

Lesson 13 — AI Voice Banana

Description: Awaaz control (tone/accent), har video same.

Full prompt (voice line add):

[attach the photo] Image-to-video. She speaks naturally in a soft warm female voice, young Indian accent, medium pace, friendly, NOT robotic, saying: "[your line]". Real handheld iPhone, ultra realistic, real skin, no filter, no text. 9:16.

Lesson 14 — Reel Editing (VN)

Description: 9:16, cut, captions, music. *(Edit skill — no gen prompt.)*

Lesson 15 — 5 Reel Formats

Description: Content formats + batch photo→animate.

Full prompt:

Generate 4 photos of the same woman (same exact face): 1 morning coffee, 2 laptop work, 3 evening walk, 4 reading at night – realistic, shot on iPhone, real skin.
Then animate all 4 (image-to-video): 1 she sips coffee slowly, 2 she types and smiles, 3 gentle wind as she walks, 4 she turns a page softly. Natural motion, no filter, no text. 9:16.

MODULE 4 — INSTAGRAM *(strategy — no generation prompts)*

Lesson 16 — Profile Setup · Lesson 17 — Schedule + Captions/Hashtags · Lesson 18 — Algorithm · Lesson 19 — 0→1000 Followers

(In lessons mein generation prompt nahi — strategy/steps.)

MODULE 5 — PRODUCT PHOTOGRAPHY

Lesson 20 — Product Photo Basics

Description: Clean product shot (character + product).

Full prompt:

Use the same character (exact same face) holding this product (attached), plain simple studio background, the product clearly visible and in sharp focus, product large and prominent, soft even lighting, ultra realistic commercial product photography, 4K, sharp, NOT cartoon, no text. 9:16.

Lesson 21 — Professional Studio Shots

Description: Studio-level (light/bg/angle).

Full prompt:

Product photo of [product] (attached, exact same), professional studio setup, soft key light with a subtle fill, plain white or light-grey background with a soft realistic shadow under the product, [eye-level / top-down / side] angle, premium commercial look, ultra realistic, 4K, sharp, no text. 9:16.

Lesson 22 — Lifestyle + Platform-Ready

Description: Lifestyle + Amazon-ready.

Full prompt (2 shots):

1) [product] held in hand in a real [cafe / desk / outdoor] setting, candid lifestyle, shot on iPhone, natural light, ultra realistic, no text. 9:16.
2) [product] on a plain white background, product large and centered, no props, no text, clean catalog style, 4K. (square/vertical crop as needed).

Lesson 23 — Fashion Try-On

Description: Flat kapda → model pe.

Full prompt:

Use the girl from the first attached image (exact same face) wearing the outfit from the second attached image – exact same print, colour and design, same dress. She stands in a cozy room in a natural pose, shot on iPhone, soft natural light, ultra realistic, real skin, no filter, no text. 9:16.

Lesson 24 — Pehla Client · Lesson 25 — Pricing

(Strategy — no generation prompts; L20-23 prompts kaam aate.)

MODULE 6 — UGC & BRAND DEALS

Lesson 26 — UGC (Pehli Video)

Description: Selfie testimonial ad (hook→value→CTA).

Full prompt:

Use the girl from the attached image (exact same face). Image-to-video. Real handheld iPhone selfie UGC video, she presents [product] to the camera like a genuine excited customer review, natural expressive energy, cozy room, shot on iPhone, super realistic, real skin, no filter, no text. She lip-syncs in a natural Hindi voice: "[hook line + value + soft CTA]". 9:16.

Lesson 27 — Portfolio · Lesson 28 — Brands Tak Pahunchna · Lesson 29 — Deal Close · Lesson 30 — Brand ke Saath Kaam

(Strategy — no generation prompts.)

MODULE 7 — MONETIZATION & SCALING *(strategy — no generation prompts)*

Lesson 31 — Affiliate · Lesson 32 — Digital Product · Lesson 33 — Faceless Business · Lesson 34 — Multiple Influencers

GLOBAL PROMPT RULES

- Image-to-video always (text-to-video = face drift). Ek locked base still → sab clips.
- "use the exact same face, same facial features" = identity lock.
- Realism: "candid, shot on iPhone, natural light, real skin, visible pores, NOT smoothed, no filter." "8K/ultra realistic" spam avoid.
- Short lines for lip-sync (15-20 words). 4 generate, best 1.
- Marketing/app/download/earn words SPOKEN generation mein NAHI → text overlay + VO.
- Real brand naam/logo generation mein NAHI (apna logo edit mein overlay).
